Dear Xilinx Hiring Manager,

With the utmost enthusiasm, I would like to express my interest in the Machine Learning position at your company. I believe that my passion for data exploration, visualization, strong commitment to troubleshoot, evaluate, optimize , and interest in finding patterns from data make me an ideal candidate to join the Machine Learning staff at Xilinx.

As a candidate, here's what I could immediately bring to the table:

An effective Machine Learning Engineer: In my capstone projects at Springboard , I have presented in-depth analysis for Classification & Regression data models, evaluated them using different methods of python sklearn libraries like Linear regression, Lasso, ridge, Decision Tree and Logistic, Random Forest, Decision Tree classification I was also able to showcase my Machine Learning abilities as a Data Scientist.

A disciplined Data Wrangler: I have always displayed my careful approach to identify data for any anomalies or gaps. At my previous various projects at Exilant or SRS, I frequently investigated data using SQL/Python/BI reports. In addition, I had the opportunity to do plenty of Data Wrangle as part of Springboard portfolio, which further shows my dedication to Data Science.

A passionate Inferential Statistician: Everything I have engaged in so far has all been driven by my keen interest in exploring data using Mathematical/Statistical methods. It is this passion that has driven every one of my career decisions thus far.

I look forward to contributing my skills and experiences to the Machine Learning position at your company and hope to have the opportunity to speak with you further about how I can be an asset to your team.

Sincerely,

Rashi Nigam
